

Jane Thompson
Head, U.S. Market Access, Account Management
UCB

Jane Thompson is Head of U.S. Market Access/Account Management for UCB, overseeing UCB's national, regional and specialty accounts (i.e., Government, Specialty, GPOs), and field reimbursement teams in the U.S. Jane is responsible for leveraging UCB's portfolio and professional network to lead her teams in U.S. market access and for executing payer strategies through innovative and customized approaches to enable optimal access for patients.

At UCB, we come together every day to work, laser-focused, on a simple question: How will this create value for people living with severe diseases? Jane plays a pivotal role in executing payer strategies through innovative and customized approaches for different payer types and segments to enable optimal access for patients. She serves as a member of both the U.S. Leadership Team and the Patient Value Unit Leadership teams.

Prior to joining UCB, Jane was Vice President, National Accounts, U.S. Market Access for Teva Pharmaceuticals. She has expertise in account management and market access in biologics and small molecule specialty products areas. Further, Jane has direct operational experience in leading commercial, government, specialty pharmacy, and group purchasing organizations and negotiation experience across pharmacy, medical, and buy and bill channels.

Jane holds a bachelor of administration in business and communications from the University of Kentucky.
